PROFESSIONAL PROFILE

Multimedia designer and audiovisual producer with 10+ years of experience across visual communication, technical production and IT support. I create identities, catalogs, responsive websites, audiovisual content and digital systems for commercial needs. I combine design, technology, generative AI and strategy to turn complex problems into clear, executable solutions.

CORE CAPABILITIES

Design: visual identity, editorial design, UX/UI, responsive websites and advertising assets. Audiovisual: editing, motion graphics, photography, 3D renders and live production.

Technology: hardware, LAN/WLAN, Windows, troubleshooting and backups. AI and marketing: visual generation, prompt engineering, workflow automation, local SEO and campaigns.

SELECTED PROJECTS - 2026

Q-implant | Product catalog

Visual direction, editorial design and image production for dental implants, prosthetic components, surgical instruments and medical apparel.

Julio Vidrios Abasto | Digital ecosystem

Brand identity, responsive website, digital catalog, service architecture, local SEO, WhatsApp conversion flow and campaign planning.

Herrería Lavalle | Commercial website

Strategy, copy, UX/UI and website production focused on service clarity and quote requests.

PROFESSIONAL EXPERIENCE

Faculty of Dentistry, UBA - Dean's Office | Technical Coordinator and Administrative Support

Aug 2014 - Jun 2020
